

RUCHIRA RAVIRAJ SONAR

SUMMARY

Information Technology undergraduate with a strong foundation in Java, full-stack web development (MERN), database systems, and machine learning concepts, consistently achieving a **9.5+ GPA across all semesters**. Hands-on experience in building and deploying applications and basic ML models. Seeking a software development internship to apply technical skills and gain industry experience in a collaborative environment.

ACHIEVEMENTS

Team Pinaka - Travel Data Collection System (Smart India Hackathon)

Nov 2025

National Level Hackathon

- Collaborated on real-world problem solving in a time-constrained environment, focusing on rapid prototyping and efficient solutions.
- Developed a mobile-based system to automatically capture user travel patterns using GPS and sensor.
- Gained experience in rapid problem-solving and prototyping under time constraints using the MERN stack and handling real-world data (GPS, sensors) and designing scalable backend systems.
- Selection at the institute level** boosted confidence and validated my ability to develop impactful solutions.

Inter-department Code-a-thon - Special Mention

Apr 2025

- Participated in a 24-hour coding competition focused on real-time problem solving and system design.
- Secured **Special Mention (Top 10%)** for delivering an optimized solution (ArtisanConnect)
- Presented solution to a panel, effectively handling cross-questioning and explaining design and implementation.

PROJECTS

Ayurdarpan - Ayurvedic Lifestyle Platform (MERN + ML)

- Developed a full-stack platform to identify dominant doshas using a questionnaire-based scoring system.
- Built robust backend services using **Node.js and Express.js** to handle user profiling, scoring logic, and recommendation APIs.
- Integrated **MongoDB** for storing user health data, responses, and personalized suggestions.
- Incorporated **ML models (Python-based)** to improve recommendation accuracy.
- Designed RESTful APIs for remedies, recipes, yoga suggestions, and e-commerce functionalities.
- Tech Stack:** Node.js, Express.js, MongoDB, Python (ML), React.js

Upskillr - Learning Management System (MERN Stack)

- Developed a full-stack LMS platform enabling students to course browsing, enrollment, and progress tracking.
- Engineered backend using **Node.js and Express.js** with modular architecture by building dedicated dashboards for students and educators with course creation and content management features.
- Built secure authentication using **JWT and bcrypt** and designed RESTful APIs for efficient client-server communication.
- Tech Stack:** Node.js, Express.js, MongoDB, React.js, JWT

ArtisanConnect - Artisan Support Platform (MERN Stack)

- Developed backend services to manage product listings, user interactions, and scheduling features.
- Created REST APIs using **Express.js** for product management, bookings, and communication workflows.
- Used **MongoDB** for storing artisan data, product catalogs, and user interactions.
- Ensured scalable and maintainable backend structure with proper routing and middleware.
- Tech Stack:** Node.js, Express.js, MongoDB, React.js

Virtual Bank Management System (Java, Swing, JDBC)

- Built a GUI-based banking system supporting account creation, transactions, and fund transfers.
- Implemented backend logic using **Java with JDBC** for database connectivity and transaction handling.
- Designed relational database schema in **MySQL** for account and transaction management.
- Tech Stack:** Java, Swing, JDBC, MySQL

EXPERIENCE

Software Development Intern – Sapphire Infocom Private Limited

Aug 2025 – Nov 2025

- Developed a full-stack Learning Management System (Upskillr) using the MERN stack.
- Strengthened ability to design scalable backend systems and structure efficient APIs.
- Gained hands-on experience implementing secure, production-ready authentication and data handling mechanisms.

GitHub:

github.com/RuchiraRS

SKILLS

Web Dev: React.js, Node.js, Express.js, HTML5, CSS3

Languages: C, Java, JavaScript, Python

Databases: MySQL, MongoDB

Core: DSA, DBMS, Computer Networks, Data Science, ML

Tools: Git, GitHub, VS Code, Java Swing, JDBC

Soft Skills: Problem solving, Project management

EDUCATION

B. E. Information

Technology (Pursuing)

Datta College of Engineering

Expected graduation:

06/2027 | GPA: 9.5+ in all semesters

Secondary School ICSE - 10th

Omkar International School

Score: 97.14%

Higher Secondary HSC - 12th (Science stre)

K.J Somaiya College of Science

Score: 78%

CERTIFICATIONS

- Java Programming
- Full Stack Web Development
- Machine Learning & NLP
